

The platform solution for your company

Offer your customers a convenient all-in-one solution with integrated payment. You can offer the solution under your own brand – Payrexx takes care of payment processing in the background.

All important payment methods

Your customers can offer all popular payment methods from a single source – without additional contracts.

Fast onboarding

We take care of the onboarding of your customers. If the verification data of the account is submitted by 4pm, we will check the details on the same day!

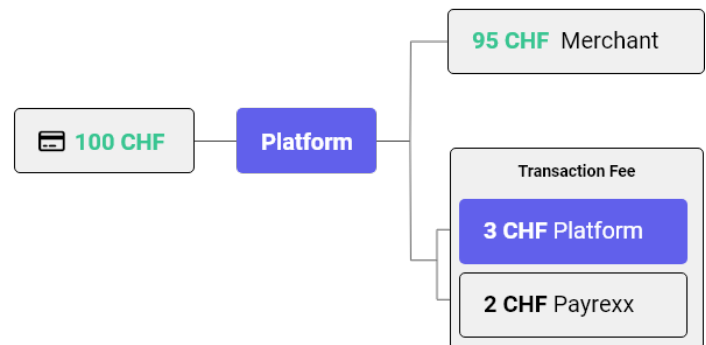

Easy integration

Thanks to the developer-friendly API, the Payrexx solution can be easily and flexibly integrated into existing systems.

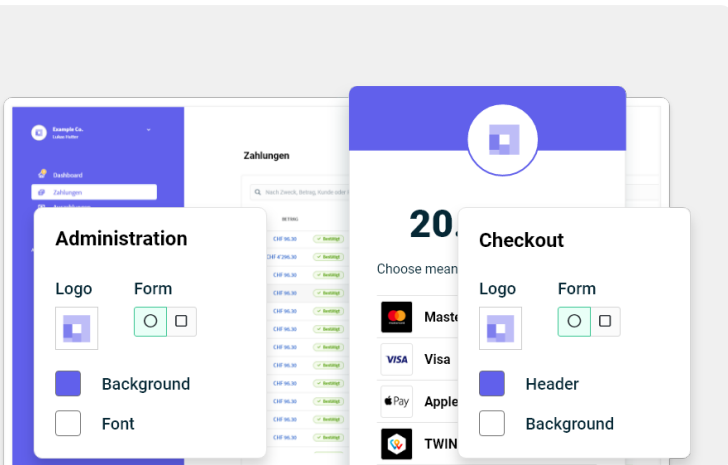

A new source of income for you

Offer your customers a practical payment solution and open up new sources of income.

Payments are split automatically between you as the platform and your merchants. You receive your share directly onto your account.

Benefit from clear management and practical tools

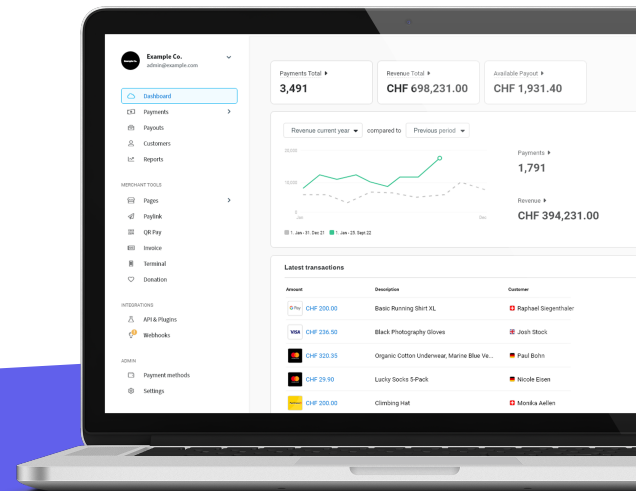

Use the platform under your name

-  **Platform in your design** – for a consistent customer experience.
-  **Clear management** of your customer accounts.
-  **Detailed insights** and reports on your customers' transactions.

The all-in-one solution for you and your customers

-  **The highest Swiss safety standards** for you and all your customers.
-  **Global payment platform** – over 200 payment methods from all over the world via a single interface.
-  **Wide range of e-commerce tools** for your customers – easy to use, whether you're a beginner or a pro.
